

PHIWE BHENGU

EXPERIENCE

University of The Witwatersrand

02/2025 - 11/2025

Library Student Assistant

As a Library Assistant at the Wits Commerce Library, I assisted students and staff in accessing the resources they needed for their studies and research. My duties included issuing and returning books, organizing shelves, and maintaining a quiet and supportive environment. I helped users with printing, photocopying, and navigating the library's catalog and online databases. I worked closely with the library team to ensure smooth daily operations and to provide helpful, efficient service to all library users.

University of The Witwatersrand

02/2024 - 02/2025

Programming Tutor

As a Programming Student Tutor at Wits, I provided academic support to fellow students in C# using Unity. I helped them understand core programming concepts, debug their code, and develop projects for their coursework. I guided students through game development in Unity, offering practical advice on scripting, logic, and engine tools. I also assisted with HTML, CSS and Javascript assignments, focusing on problem solving and coding best practices as I plan to study frontend web development in the future. My role involved one-on-one tutoring, group sessions, and contributing to a supportive learning environment.

Legit

09/2023 - 12/2023

Part Time Sales Clerk

As a part-time Sales Clerk at LEGiT Clothing Store, I assisted customers with their purchases by providing product information, helping them find sizes, and offering style advice. I handled point-of-sale transactions, maintained the cleanliness and organization of the store, and restocked merchandise as needed. I worked as part of a team to ensure excellent customer service and contributed to creating a positive shopping experience for all visitors.

EDUCATION

University of the Witwatersrand
